

Soy Bean Asphalt Release

**Better than diesel, cheaper than diesel, and legal too!
Asphalt Release is specially formulated as 100% biodegradable and is non-petroleum based. Discover increased slips and less bonding of hot asphalt mixtures when applied to truck beds and other metal surfaces such as spreaders and tools.**

It is great for Asphalt plants as well.

A 100% biodegradable product, specially formulated to withstand high heat, and work with any spraying system. Non-toxic and non-caustic, spills and over-spray are no longer a concern. Just spray it on and an invisible barrier is formed between the hot asphalt and the metal surface. Water rinse is the only disposal called for.

Diluted Break Down Usage
