

“ **Power Cart for your Striper** ” The original ride on attachment. It can be used with a wide variety of equipment from Pavement marking machines to hot pour pots.

“ **Atomising Stripers** ” top quality pavement marking machines. This is the most cost efficient way to paint parking lots. Almost never have to replace tips!! No need to strain paints!!! Almost no tip clogging. Can flush tip from back of machine Can handle all viscosity of paints. Puts down a more uniform and long lasting line and is easier to set up and use. Clean up time and solvents are cut in half!!! The parts to maintain the machine are locally available and are normally inexpensive. No long expensive hoses. Hand guns are easily attached. You can use cup guns for small paint jobs ( handicap blue symbol etc. )

“ **Airless line stripers** ” Just the best Airless on the market! Its slow- long Stroking Hydraulic drive system eliminates line edge ribboning or Line winking, No clutch to wear or fall apart. No need for large expensive hoses or accumulators. Simply put, more productivity, straighter lines. Most economical airless on the market. It also can easily be fitted with an electric motor for factory or inside marking.

“ **Soy Bean Solvents** ” Wide range of products all made from 100% American Grown soybeans. 100% biodegradable. Non-petroleum based asphalt and sealer Release **(Great For Asphalt Plants)** and cleaning products. **Including tack release ( no more sticky Shoes!! No more tire tracks across bridge decks etc. )** Great for paving machines and shovels. Clean your cones and car splatter. Etc.

“**Big Foot**” This tool makes snapping lines and measuring by your self easy. If you have a helper he can snap the lines while you paint. Never lose Your tape and chalk box, as this tool can hold both!

” **Pre-marked Layout Tapes**” Keson extruded Fiberglass surveyor rope. Layout marks in 4 different colors for 90 and 60 degree stalls. Made to lay flat On the surface to reduce movement by blowing wind. Measure accurately ever Time! **Will be custom made for your layout needs!**

“ **Post Guard** ” This is a protective Sleeve that Fits over existing bollards. It is an ultraviolet resistant and antistatic sleeve (no more scraping poles).

“ **Stencils**” Plastic Stencils for parking lots-Streets-Sport Surfaces. Letter kits, arrows, words and symbols. We can also make your custom stencil.
