

Keson fiberglass reinforced tapes are designed to withstand more wear and tear than any other type of measuring tape. These tapes contain more fiberglass strands for greater tensile strength and superior accuracy when tension is applied. Temperature correction is not necessary and a proven dielectric strength of 200,000 V/M is your assurance of safety from electrical hazards.

Less Wind Drift and Improved Flexibility These **nylon coated steel tapes** bend easily to curved surfaces and are lightweight even in 300 ft. length. They are constructed to be highly break and damage resistant under the toughest field conditions.

Formulated to achieve a perfect line every time. Brilliant color oxides added to assure constant color tones for strong sharp lines. Popular sizes: 4, 8, 12 oz. and 5 lbs.

Ultra-Fine® marking chalk in 25 and 48 lb. containers. Economical and available in four vivid oxide blended colors (red, white, blue, and yellow.)

These unique **marking crayons** can be used on cardboard, ceramics, concrete, lumber, metal, paper... practically anywhere! Special lead-free formulation provides permanent water-proof marking.

Uniquely designed **lumber crayon holder** permits advancement of crayon to any designed length then retraction to prevent breakage. Aluminum barrel includes a leather strap for convenient hangup or carrying. Walnut wood or lightweight aluminum holders

Superior quality virgin yellow opaque poly material is printed with ultra-bond jet black ink which permeates the plastic surface. It's scratch-proof and weather resistant for long life.

Highly visible flagging tape made from extruded P.V.C. which is preferred by professional tradesmen, surveyors and sportsmen. In fluorescent and standard colors, box packed, bulk packed and in economy size.
