

"When Quality Matters"

Ranjo's Inc.

Pre-marked Layout Tapes

**Save Time-Money and Guarantee layout accuracy.
Using one of our pre-marked tapes**

We use a Keson Extruded Fiberglass Surveyors Rope. It is 1/4" wide with a clear vinyl coating. Will not stretch.

Cut down on repetitive addition mistakes!!!

We have them in both Tenths of a foot or Inches. We offer both 300 foot and 200 foot tapes. Pre-marked for both 90 & 60 degrees. The 90 degree offers 3 different stall widths 8.5, 9, and 10 foot. The 60 degree marks are for a 9 foot stall. We can add any other measurements you need.

All marks are on both sides of tape. Different measurements are marked in different colors. They come on a cord reel and are ready to use with a BIG FOOT. We use a high quality marker to make the marks.. Not a blob of plastic as some have. The reason is, any added width to the tape makes it hard to lay down with a breeze or wind blowing. Our tape can be remarked at any time.

(Remember using a 10th of a foot tape you can use the most simple and cheap calculator to figure out weird dimensions.)
