

"When Quality Matters"

Ranjo's Inc.

PowrLiner Series

Great Maneuverability and Versatility

The PowrLiners have a unique modular frame design that allows you to move the handle to the front to create a rear wheel caster configuration to suit the operators preference or specific job requirements.

All PowrLiners have a heavy duty Sure-Trak front caster system that allows you to transition from a straight line to a curved line smoothly and easily with a control lever on the handle. This caster system will automatically lock back into a true straight track once the lever is released. Sure-Trak precision radius lock makes painting curved lines and circles quick and easy.

Hydraulic Powered for Reliability*

These world class stripers use long-stroke, slow-cycling paint pumps for consistent production of clean sharp lines. No clutches to wear or delicate pressure controls that fail. Hydraulic power eliminates the need for clutches and gears. Smooth hydraulic operation minimizes pulsing and vibration from constant clutch engagement.

PowrLiner 9900XLT

Recommended for Very Large-Scale Projects on Airports, Roads, Parking Lots and Athletic Fields

- ✎ Heavy-duty, epoxy-finished frame resists harsh solvents and corrosion.
- ✎ A wheeled operator's seat can be hitched to rear of striper for greater comfort.
- ✎ Powered by a Honda® 8.0 hp OHV engine with Low-Oil Alert.
- ✎ Engine controls in easy reach of operator.

Precise pressure control from 400 psi to 3300 psi, for spraying light-bodied coatings all the way up to low-VOC striping paints.

Unit is self-propelled with Dana™ Transaxle Drive for precise, variable speed control at the press of a button.

Equipped with S-3 spray gun and SC-6™ Reversible Striping Tip with 1/4" x 50' long anti-static hose.

- ✎ Large hose storage rack stores up to 300' of hose.
- ✎ Pneumatic tires for smooth traction.
- ✎ WideTrak™ precision front caster system is a swivel caster that locks into straight or radius modes for accurate, precise lines.
- ✎ Convenient, on-board 12-gallon paint hopper.

PowrLiner 8900XLT

If your Striping application includes both single-gun and double-gun markings with more paint output than any other popular brand of portable linestriper, the PowrLiner 8900 is the striper for you. It's heavy-duty airless fluid system produces 2.0 gpm (7.6 lpm) to support two guns simultaneously with .033" tips. This tireless workhorse handles extra- wide lines and higher speed. It is perfect for airports, temporary road marking and crosswalks.

PowrLiner 6900XLT

If your Striping application includes both single-gun and double-gun markings with more paint delivery than most popular competitive stripers, the PowrLiner 6900 is the striper for you. It's heavy-duty airless fluid system produces 1.7 gpm (6.4 lpm) to support two guns simultaneously with .031" tips. The PowrLiner 6900 handles double lines at up to 7 MPH, perfect for ride behind accessories, like the popular LazyLiner™.

PowrLiner 4900XLT

If your Striping application needs include both single-gun and double-gun markings with moderate delivery, the PowrLiner 4900 is the striper for you. It's heavy-duty airless fluid system produces 1.3 gpm (5. lpm) to support two guns simultaneously with .026" tips. PowrLiner 4900 offers exceptional performance and unequaled reliability for the price of smaller competitive models.
