

# Alitec Cold Planers

Highly versatile Alitec cold planers are adaptable to a wide variety of job environments including road repair, line removal, Snowplowable marker slot cut, bridge deck repair, Asphalt blending, Birdbath removal, frost heave removal, bump removal, Curb and gutter beveling, landscaping, municipal, shopping center and utility work.

Alitec cold planers are easy to maneuver around manhole and storm drains; excellent for bridge decks and Highway work where heavier, dedicated planers are not allowed.

**For some applications we ramp up the speed so let us know what your use is going to be!!**

**Available in 16", 18", 24" & 30" widths.**
